3. Every student of the University, during the hours of study, shall abstain from hallooing, singing, loud talking, playing on a musical instrument, and other disorderly noises in the College and around the College Buildings.

4. No student shall go out of town, so as to be absent from any College exercise, without leave first obtained from the President or some member of the Faculty.

IV.

It is earnestly desired by the government of the University, that the students may be influenced to good conduct and diligence in study, by higher motives than the fear of punishment.

The sense of duty and honor, and the generous feelings which belong to young men and women engaged in honorable pursuits, are appealed to as the best regulators of the student's conduct.
